My deer, venison

Deer, known as venison meat, is a seasonal ingredient that has gained popularity in recent years. Mostly due to the fact that it appears more frequently on menus and the quality of the meat has increased significantly too. Chefs can get good value from this meat from suppliers and create fantastic dishes, excellent additions to an autumn/winter menu.

Roast Loin of Venison with a smooth celeriac puree

2.3 kg Venison boneless saddle - VN242
1 kg Chopped celeriac - VW122
500 ml Full fat milk - DY232
600 ml Milburn fresh cream - DY301
50 g Kerrygold creamery butter - DY149
1 Banana shallot - VW154
1 Crushed garlic bulb - VW131
5 g Vegetable boullion - Z180

1 A day in advance of cooking the venison, trim the saddle and cut into 300g strips. Roll the strips tightly in cling film to make a sausage shape and chill overnight.
2 To make the celeriac puree, put the cream and milk into a heavy bottomed pot and bring to the boil. Add the celeriac to the mix and simmer until tender.
3 Meanwhile, sweat off the shallots and garlic.
4 To finish the puree, strain the remaining liquid from the celeriac and reserve. Puree the root in a food processor, add the shallot and garlic and process until smooth. Add a little more liquid if necessary and finish by correcting the seasoning with salt, pepper and the bouillon.
5 To finish the venison, cut the wrapped loins into 60g steaks and seal in a hot pan. Place the steaks into the oven until cooked medium rare (approximately 4 minutes)
6 To serve, pipe a little of the puree onto a plate and pop the venison steak on top.

2 cm piece of fresh ginger, minced
120 g dark brown sugar
125 ml apple cider vinegar
juice & zest of one lemon
100 g raisins & diced dried fruits (any mix)

A pinch cayenne pepper powder
450 g fresh figs, diced

1 In a saucepan, heat the oil over medium heat. Add the onions and cook until translucent, about 5-6 minutes, stirring occasionally.
2 Add the remaining ingredients, except for the figs. Cook at a low simmer for 20 minutes, then add the figs, cover the pot, and cook for 5 to 10 minutes until the figs are tender and cooked through.
3 Remove the lid and cook 10 to 15 minutes over low heat, stirring, until the mixture thickens and becomes jam-like.

Shepherd's Store Whole Cheese 4.5 kg

Shepherd's Store

Shepherd's Store is a traditional, European style semi-hard cheese. As a seasonal product, it is made only between the months of February and September, and is aged for a minimum of six months. Shepherd's Store offers a firm yet delicately creamy texture – with a full yet not strong flavour – combining a complex mix of both savoury and gentle, sweet notes. Creamier in style than Manchego or Pecorino, this is a distinctly Irish traditional farmhouse cheese. It is ideal as a cheeseboard cheese, but can equally add another dimension to a green salad with toasted pine nuts, ripe tomatoes and prosciutto.

CASHEL BLUE is best described as characterful, but not strong, yet the taste, texture and look changing over time from its youngest age of six weeks to six months, the longest time it is advised to age it. With time, it becomes creamier and indeed more balanced in flavour as the saltiness, blueness and gentle milky elements integrate together.

Mont D'or 6 x 384 g per Case

MONT D'OR CHEESE is gooey, runny, sticky and liquescent (and that's not a word you'll often see applied to cheese) and is one of the only French cheeses you have to eat with a spoon! It's named after Mont d'Or – Golden Mountain – in the Jura region. In France, it is revered as the best of the raw milk cheeses and is only made between August 15 and March 15, and derives its unique nutty taste from the spruce bark in which it is wrapped and only eleven factories in the French Jura region are licensed to produce it. It's a protected cheese and there's nothing else quite like it.

A WINTER BELLINI
Try this great cocktail on the menu as an aperitif for your guests... To make the purée, bring 3 peeled pears to the boil in a pint of water sweetened with 120g caster sugar. Grate in a 2cm piece of peeled fresh ginger, add a good squeeze of fresh lemon juice, and simmer for about 15 minutes, until the pears are tender. Remove from the heat. Then cut the pears' flesh away from their cores, and blitz into a purée. Pour 50ml peach purée into a champagne flute, top up with 100ml cold Prosecco. Stir together very gently to mix without losing the essential fizz. Serve at once!

A WILD G&T!
A gin & tonic has never been more popular as it continues to be the drink of choice for so many people in Ireland. There is a massive portfolio of Irish craft gins, all with their own distinct characteristics and botanicals. Glendalough Wild Botanical Gin is one such gin, that is made using foraged wild plants from the mountains around the distillery in County Wicklow. What they pick goes fresh into the still within hours of foraging and all plants are sustainably picked by a full time forager who takes a lot of care that they don't adversely effect the areas they find them in.

The bit on the side

Sometimes one flavour, ingredient or sauce can bring a whole dish together to make it complete, marrying flavours that would otherwise have fallen a bit flat and also helping to bring out richness and depths of flavours. These sauces are the perfect bits on the side!

THE FLAVOUR THESAURUS

Ever wondered why one flavour works with another? Or lacked inspiration for what to do with a bundle of beetroot? Written by Niki Segnit, The Flavour Thesaurus is one of the handiest books to have in your kitchen when creating new dishes and working with sauces. The book is divided into flavour themes including Meaty, Cheesy, Woodland, Floral and Fruity. Within these sections it follows the form of Roget's Thesaurus, listing 99 popular ingredients alphabetically, and for each one suggesting flavour matchings that range from the classic to the bizarre. You can expect to find traditional pairings, contemporary favourites and interesting but unlikely-sounding couples There are nearly a thousand entries!

Newgrange Gold

Newgrange Gold is a family business started in 2010 by John Rogers, Barrister and Farmer, and is now managed by his son, Jack Rogers. The business is run from the Rogers' family farm that looks over the historic and beautiful Boyne Valley looking over the Boyne river at Crewbawn.

Having watched Oilseed Rape grown on the Rogers' family farm leaving in trailers to the local merchant, John saw an opportunity to create a brand that connected the rich and ancient soils of the Boyne valley and the high-quality food produced there.
